

# Anarea *Forty* *Factions* Plot Information Sheet

<b>Tarot Card</b>	<b>III The Emperor</b>
<b>Alleyman's Tarot Card:</b>	<b>III The Emperor (Page No. 6)</b>
<b>No. &amp; Name of Plot:</b>	<b>4. <i>A State Visit</i></b>
<b>Expansion</b>	Base Game
<b>Description</b>	A high-ranking representative of a Nation makes a State Visit, turns up unexpectedly or is rumoured to be in town.
<b>Specify</b>	Specify (i) the foreign State that is visiting (which may be that of an Activated Faction, including one held by you, but does not have to be) and (ii) the status of the Visitor (whom you will play).
<b>Notes</b>	If this Plot has already been played in the Game, a different State must be specified to previous Visits. The Plot is triggered by the arrival of the dignitary. State Visits can be elaborate affairs, depending on the status of the Visitor, and can result in protests or even assassination attempts by rival States or Factions. A Visit by an Underworld State is unlikely and would probably be made in secret. If the Inquisitor Plot is played in the same Game Turn, the Inquisitor may be a representative of the Visiting State accompanying the Visitor. <b>DD:</b> The Visitor may be from an Otherworld.
